- Quick & Easy Electronic Calibration
- Graphic Display with Text Messages

FAST, PROFESSIONAL SERVICE AND SUPPORT

- Five Star Customer Care
- Budget Conscious
- Dedicated to saving you time and money

Why Choose Lifeloc Technologies

WHAT SETS US APART

Lifeloc Technologies, Inc. is a leading manufacturer of professional breath alcohol testing instruments. Established in 1983, Lifeloc is a fully integrated U.S. manufacturer with factory and headquarters located in metropolitan Denver, Colorado. Lifeloc offers a full range of DOT approved evidential breath alcohol testing instruments.

Continuous Innovation

Lifeloc's FC Series introduced break-through, patented technology to breath alcohol testing. With Lifeloc's continuous innovation, these instruments continue to lead the industry, providing:

- Fastest test response times
- Unsurpassed test repeatability in both recovery time and number of tests in sequence
- Best in class ease of use
- #1 for fast, simple, electronically controlled calibration
- Unique 64 character graphic display simplifies alcohol breath testing

Full Range of Models/Total Support

The FC Family of models includes everything from simple, digital screeners to models capable of memory, printing, and computer interface with custom set-up easily programmed by the operator

FC10 / FC10Plus / FC20 / Printer Kits
Sequence™ Software - Programmed Test Protocols
DataTrak™ Advanced Computer Interface

Premium Quality

Renowned for durability, reliability, and long life, Lifeloc PBT Instruments use only the highest quality components, such as a full size fuel cell and robust electronic pump/sampling system designed for over half a million cycles.

Easily and securely fits in your hand

FC20 Kit

User Friendly

- Simple, trouble-free, automatic operation
- Instant response
- Clear intuitive prompts use text messages and icons... no more "error codes!"
- Always ready... virtually no limit on number of tests
- Fail-safe design - to ensure a valid test result or else indicate the problem *and* the corrective action
- Extremely long battery life and redundant battery indicators... never a power failure with Lifeloc
- Easy, menu-driven operation puts numerous helpful features at your disposal

FC PBTs include everything you need

Available on CD:

- DataTrak™ Computer Interface
- Operation Certification and Training
- Calibration Instruction

Factory Training and Certification Available
